

Proposal for Skopje Spring Congress 2020

Proposal
602

LYMEC Spring Congress, April 3 to 5, 2020 in Skopje

Author: Jonge Democraten - Berber Dotinga Co-signed by: Radikal Ungdom

Status: accepted rejected transferred to _____

The Skopje Spring Congress 2020 may decide:

1 A less wasteful Europe

2 Noting that

3

- 4 • We use 16 tonnes of material per person per year which leads to 6 tonnes of waste per
5 person per year.
- 6 • Only 36% of our waste is recycled whereas 600 million tons could be recycled and
7 reused.
- 8 • The European Union revised its policy regarding the separation of waste which eventually
9 will result in a circular economy.
- 10 • LYMEC does not have a viewpoint on the separation of waste and needs to position itself
11 to contribute to the circular economy which helps in the fight against climate change.

12

13

14 Believing that:

- 15 • People are the main cause of climate change.
- 16 • People need to change their habits to throw all waste away, even many times all waste in
17 one bin.
- 18 • LYMEC needs to support the new EU legislation to reach the goals set by the EU.

19

20

21

22 Calls for LYMEC to:

- 23 • Take a position in the circular economy debate regarding separation of waste and push
24 this position to the European Union which eventually will lead to European Union

25 legislation on the separation of waste.

26
